A simple telephone call to a supplier overseas and thousands of cartons of seafood will be delivered to our doorstep. However, we look forward to the day when we are able to provide our own seafood from the ocean. We hope to develop our own fishing industry instead of depending too much on supplies from overseas.

The Agri-Food and Veterinary Authority of Singapore (AVA) has been playing a vital part in educating and helping our fish merchants in food sourcing and showing us the trend of the fish market in the whole world.

We would like to take this opportunity to thank the AVA for the help extended to us since day one. We look forward to having a closer relationship with the AVA which has helped to move our Senoko Fishery Port to better future.
